2

**Shackle is released and ready to secure to a door or gate**

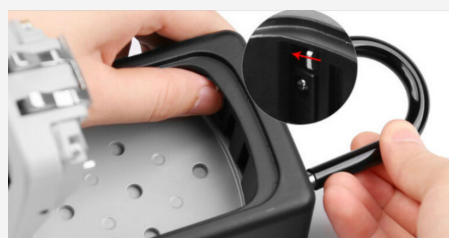

3

**Attach to a secure object, connect shackle and box**

4

**Push button 1 back to original position and close cover**

## How a lock box works once issued

- You set your code of choice
- You leave in a secure spot
- You advise us of lockbox location and code

Advise through Agent questionnaire or  
text Saurus mobile 0428 823 667

Please including instructions on how to leave the  
lockbox for example

- If you would like keys and box returned to  
your office
- We can leave onsite after use for the next  
trade – we are more than happy to have you  
use to your advantage

Agents are using for vacant homes mostly, but in  
recent time with our company not meeting  
potential buyers onsite

Some homeowners / tenants have been happy for  
our reputable company to conduct our inspection  
while at work or out for the day

I know this option is not for everyone but it's  
worth a mention when our lives are so busy

Store your Office Combination  
in a safe place
